

Part no. 006200

PTT 1000 MANUAL PRESSURE TESTER

Robust pressure tester for inspection of truck tyres. The test manually controlled and is performed at 3 pressures, 2 speeds and 2 rotation directions:

Tested pressures:

- 2 bar at open door
- 6 bar at closed door
- 8 bar for 10 seconds at closed door

The robust structure ensure the maximum level of safety.

(image just for illustration purpose, the machine offered may have different configuration)

MAIN FEATURES:

Robust structure
1 Pair of bead plates included (for 22,5" tyres)
Spacers included
Allen-Bradley electrical components

TECHNICAL DATA:

Air supply pressure	8 bar
Total installed power	5 kW
Power Supply voltage	400V – 50 Hz
Overall dimensions (mm)	2700x1700x2115 h
Weight	2400 kg
Range of tested tyres	15" ÷ 24.5"
